### Finding Your Stable Energy Trend in a Very Shaky Economy (The Light at the End of Your Tunnel)

**Date:** Saturday, Nov., 21, 2009 **Time:** 10:00 - 2:00 p.m.  
**Fee:** \$38 includes lunch and materials; Advance reservations; 1/2 non-refundable deposit or full payment in advance; **Facilitator:** Karen David, DD,

This workshop will touch in with some of the universal, impelling trends of our economy for 2010. Equally important, this workshop will show you in a practical way, how to track your own personal, impelling trends for 2010 using the science of numbers, so you can move with the energy trend appropriately.

You will come to know better when the impelling trend may be for spending, for saving, or for consolidating. When will you have the opportunity to attract financial opportunities? When is it during 2010 that you may need to "lay low" concerning financial investments or spending more? Depending on your own personal trends, do you or do you not take a financial risk in 2010?

Even in economic rough times, there is always a light that shines. You will learn how to "check in" with that light -- the energy of your financial impelling trends using the language of numbers via your own chart as tools of awareness to help you prepare better for 2010. We will focus strictly on the financial sector of your reality, your personal world.

In addition, we will touch in on other tools and techniques shown to you along with more understanding of you as the spiritual being you are and how you do or do not attract what you want. Everything is energy as you know. Our heavenly Creator wants us to be abundant, happy. It is our choice and our responsibility as to how much or little faith to know that and practice it.

Prepare yourself for this intensive workshop. You will be participating as well as receiving much information.
