

Impelling Trends –The Year 2011

$$2011 = 2+0+1+1 = 4$$

Also

$$2011 = 2+0+11 = 13(1+3=) 4 \text{ as an undertone}$$

What a year it is all ready isn't? It just began, and all ready there is still disruption, instability, "revolution?" in the air, if you will, and surprising events including the shooting of the congresswoman in Tucson, Arizona on January 8, 2011 which by the way is added: $1 + 8 + 2 + 0 + 1 + 1 = 13 (1+3) = 4$. What is worthy to note is that the day the shooting occurred has the same double digit number as the undertone does to this universal year (see above), both of which, when added and reduced down to this base digit equals a 4.

The year certainly did start out with a sudden shock of that nature which, of course, was then naturally expanded with misinformation and then relayed as "political". So, now you have the democrats and republications, pointing fingers at each other even more.

The number 13/4 principle in part represents, instability, sudden disruption, death or change, and regeneration over time. For those of you who know astrology, the number 13 is also associated with the planet Uranus, so is the number 11, as a master number frequency. Both are contained within the universal year this year in 2011.

How many people "fear" the number 13. For example, there are buildings that do not have a 13th floor. It has become a very superstitious and "unlucky" number. You know, where your state of mind is and where your thoughts are, that is where your life is. It holds true here as a principle for the number 13. If you keep thinking it is always a "bad" number, then that is what you will draw. However, it has nothing to do with the actual principle meaning of the number itself.

True, a horrible incident happened on that 13/4 universal day, and yes, death did occur which this number principle can also represent on one of its base level meanings. Death however, does not always mean physical. It can represent a change of different sorts. Unfortunately in this case the disruption, or tragedy was physical. It was a doggone shame that someone who was unstable in ways we may not understand, pulled the trigger. Yet, the number principle itself is not responsible. It only described, one layer/level of impelling trend frequency that was around that day. The choice to have it turn into a tragedy was made by the individual.

Yes, there is a layer/level of this number frequency that describes the downside or negative aspects which can also include disruption, abrupt and sudden which can affect the "foundation", the roots, the "institutions" if you will because of the underlying number 4 as its base digit. The 4 is what we hold solid, firm, secure, and many times that "something" or someone or ideology, or belief could be one that has been longstanding—been around a long time. That's why when a 13/4 shows up, and a real wake up call is about to happen, it usually occurs with the theme "longer standing" somewhere contained within it. This means it can relate to having been around a long or longer while.

The shooting on January 8 (the 8 being another powerful influential impelling trend) catapulted into the disrupting 13/4 lower level trend and events created even more disturbance in our political system which is 4-like, if you will, -- long standing and long standing enough to seem like an institution unto themselves. But, it also spelled tragedy to innocent people in this case too. The lone wolf gunman may or may not have had political intentions at all, who knows really for sure at this point. But it catapulted into that. The number principle just showed that something disruptive, something sudden was about to happen to change

events, circumstances, hopefully not tragic. However, in this case, it was tragic due to the choice made by an individual.

There is also though, an uplifting layer/level with the number 13/4. The number 13 is also the number of healing ,regeneration, and the potential for ultimate attainment. Things over time change for the better. Old bases are disrupted for the newer or more improved, healthier and sturdy foundation, so solid, better, and realistic dreams can be attained.

The base digit 4 is also about healing and in part represents loyalty, common sense, steadiness and practicality. As poet Ralph Waldo Emerson once said, “ common sense is genius dressed in its working clothes”. This saying is one of the best and simplest descriptions of the number 4 principle as a base digit. So remember, even though the double digit, 13 may represent disruption, etc., the underlying base digit is 4. Remember this during 2011, which is the main impelling trend (see above).

We can, if we wish, come up with innovative (the number 11 contained within the 2011) , inspired, creative, and rather good and practical solutions to our political backbiting, to our economy, and to enhance, strengthen, heal, regenerate the foundational principles that are good and hold true(4). The practical solutions could seem rather ingenious at that too! Over time, tragedy can turn to good, true and positive healing and solutions!

Above all remember the 13/4 has a really powerful and good meaning as well. Just look at this:

$$\begin{array}{cccc} \text{I N} & \text{G O D} & \text{W E} & \text{T R U S T} \\ 9 5 & + 7 6 4 & + 5 5 & + 2 9 3 1 2 = 58 = (5+8) = 13(1+3) = 4 \end{array}$$

Do we really?

Here is something interesting to remember, as well. The above saying is also on the United States currency.
